## What Is A Strategic Life Plan?

Often it is true that we, ourselves, are the biggest obstacles to our own advancement, joy and fulfillment in life. Our ability to lead ourselves and others largely determines how successful we are at creating a truly meaningful life.

Strategic Life Planning helps you identify and remove your barriers to leadership. It creates a safe and confidential environment where you can openly and honestly explore your dreams, your current reality and how to close that gap. It gives you a strategic action plan designed to achieve balance in the five major areas of your life.

Your Life Plan is a personalized, strategic, charted plan, developed over a two-day period, designed to guide and focus your next steps.

## How Will I Benefit From A Life Plan?

At the end of just two days, you will walk away with:

- Purpose
- Focus
